Printing guidelines: Max. temperature (material) should not exceed 80°C as overheating can impair the flatness of the media. Ink re-restrictions and heater settings have to be set for specific printer ink combinations to obtain the best results.

Storage conditions: 1 year under normal conditions (10–25°C at a relative humidity of 30–75 %). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place.

Environment: The media and final prints can be disposed of as polyester waste. Material is suitable for recycling. Please consult local recycle resources. For treatment of ink or ink residue, please refer to your printer manual or supplier.
